

Clamp-It™ Saddles

Anti-Corrosive Solution for Mining Irrigation Lines — Fast, Easy Sprinkler Connections

Bolt-Free Design

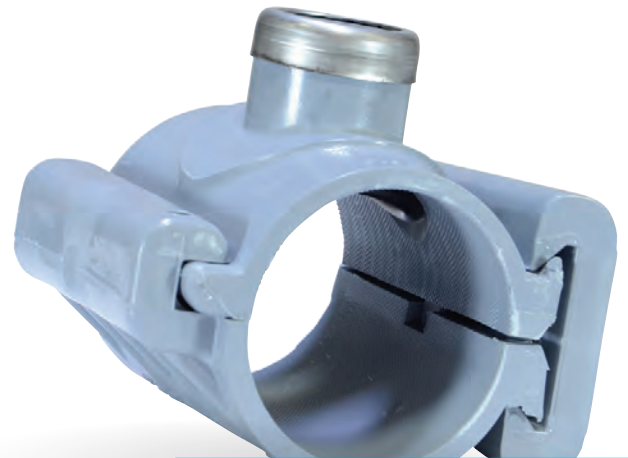

Fastens in as little as 45 seconds,
for considerably less set-up time

Anti-Corrosive, Long Lasting PVC Material

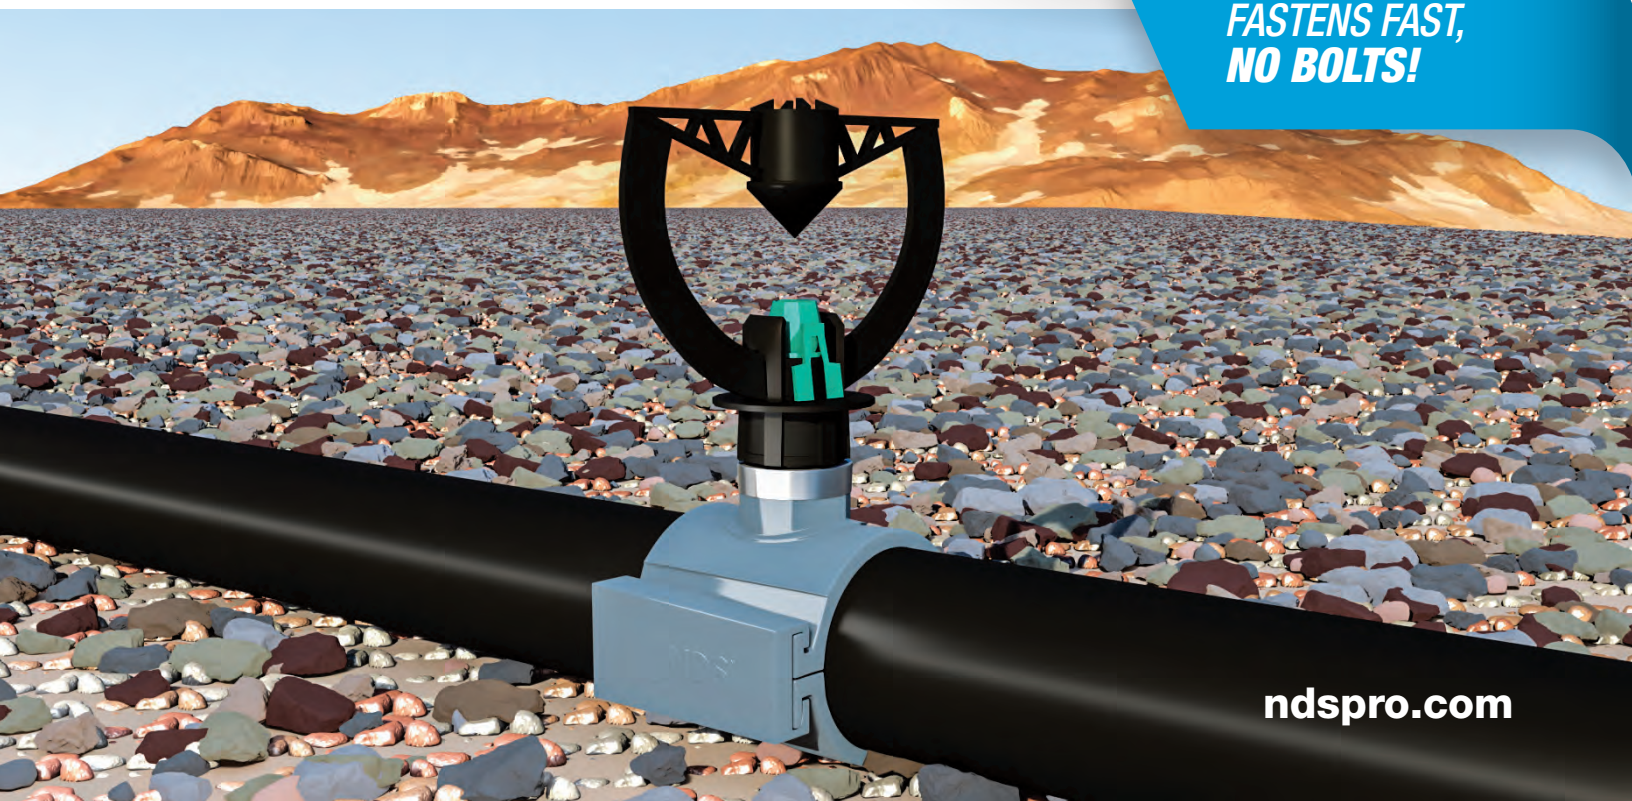

Withstands highly-corrosive environments to
outlast and outperform competitive products

Leak-Free Performance

Secures tightly around PVC or HDPE piping
Trusted in copper mines across North America

**FASTENS FAST,
NO BOLTS!**

ndspro.com

From a leader in irrigation and flow management solutions, NDS® Clamp-It™ Saddles are successfully being used in copper and gold mines across North America. Capable of withstanding mining's highly corrosive environment, NDS® Clamp-It™ Saddles are the preferred method of spray head connection, even for chemicals like cyanide and sulfuric acid. And they feature a patented wedge system that installs quickly and secures firmly around the irrigation piping without the use of bolts.

An Economical Choice

NDS Clamp-It Saddles are a more **cost-effective solution** than competitive products.

3-Step, Easy Installation

Step 1

Place the saddle on a desired location and mark. Remove saddle, drill hole and deburr.

Step 2

Place saddle over hole and attach easy clamping hinge around pipe.

Step 3

Apply wedge halfway by hand and finish off with a slight tap of a rubber mallet.

Wide variety of sizes available. Compatible with PVC and HDPE pipe.

NDS offers a full range of sizes for today's mining applications - from 1.5" - 8" diameter with 3/4" - 2" outlet size.

Please contact your NDS rep for exact sizes.
